1971

During the years of 1970-71 four students were killed by National Guardsmen at Kent State University; 18-year-olds were allowed to vote; the midi invasion threatened the mini skirt; the Gay Liberation demanded equal rights and society's approval. Nixon froze wages and prices, and Charles Manson and three members of Macabre "family" were convicted. During the occurrence of these events, Montgomery High School was under construction.

For the first school year, the 1970-71 student body attended Mar Vista High School, from 12:00 noon to 5:00 p.m. During the second year, the Montgomery campus was incomplete, but there was still the excitement of attending a new high school. A school that the student body could call their own. Hail the red, white, and blue! Montgomery High, Home of the Aztecs!

As the students, teachers, and alumni celebrated "Montgomery's First Ten Years", Ms. Gloria Cardenas, this year's Grand Marshall, crowned Leticia Carrillo the new Homecoming Queen for 1979. Leticia was nominated by the MECHA Club. Among her Royal Court were Princess Mildred Collins, selected by Kujichagulia, Princess Bernadette Garland, chosen by Varsity and Junior Varsity Cheerleaders, Princess Susy Hayward elected by The Associated Student Body Cabinet, and Princess Cherie Pumpelley who was appointed by the Knowledge Bowl Team.

Nominating Convention for 1979-80

BIG MAN ON CAMPUS

Big Man on Campus, or BMOC, is quite similar to Homecoming. The first year to have BMOC was 1977. Each club or organization nominates one senior male to represent them. The school voted for one of the candidates and the A.S.B. selected the top five finalists. The nominee with the highest number of votes became the Big Man on Campus.

Big Man On Campus
Gilbert "Chango" Sanchez

He was nominated by the Soccer Boosters. He participated in sports such as football, soccer, and track and was actively involved in the Volleyball Club and Backgammon Club. Graduating from college, helping and working with people, and becoming wealthy are just a few of his goals. Being BMOC this year, Gilbert received a trophy with his name & Montgomery High 1980 BMOC engraved on it.

THE TURNING POINT OF THE EIGHTIES

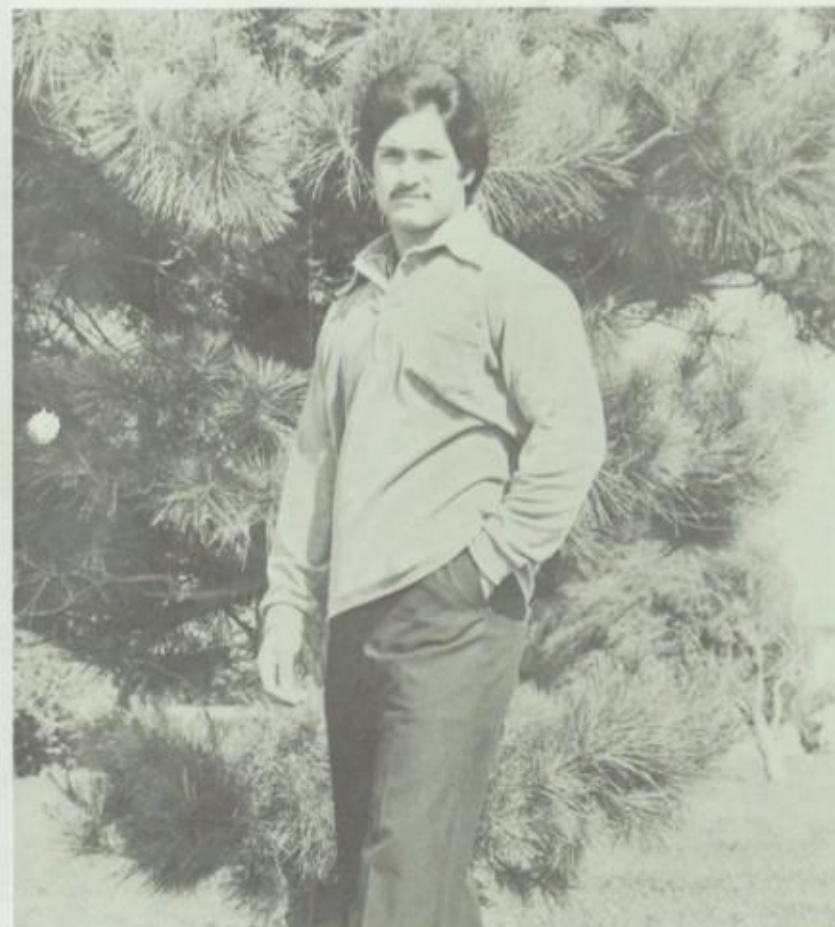

One of the finalists was Tevel Holeman, who was a nominee from the Kugichagulia Club. He was a great contribution to the Varsity Football Team and involved actively on the Varsity Baseball team. Tevel's main goals in life are to attend college and major successfully in Business.

Hector Mejia, also a finalist, represented the Fishing Club. He was captain of the Varsity Wrestling team to which he contributed greatly, and participated in Cross Country. Hector's plans are to attend college or enlist in the Air Force.

Ray Howard was an elected nominee from the Drill Team. As an individual who excels in sports, he was an asset to the Varsity Football, Track, and Varsity Basketball teams. Attending college is one of Ray's future plans.

Nominated by the Pep Club was Freddie Thornton. He was active in the A.S.B. as Commissioner of Assemblies and took part on the Varsity Football team. Playing college football, majoring in Engineering and becoming wealthy are just a few of Freddie's ambitions.

FACULTY STANDOUTS

"Each dawn has a new beginning" — for instance Montgomery's first year of having Faculty Standouts. This was an attempt to recognize the teachers who have motivated their students in some way. There are six categories. Most Inspirational, Done Most For Montgomery, and Most Humorous are just a few. Voting was done by the seniors in advisory, picking the top male and female teachers for each category.

ROSIE MACRAE

The 1979-80 Tonalamatl is the 10 year anniversary issue based on the themes of past yearbooks. This year's annual staff has selected as its theme a dedication to the nine previous Tonalamatls. We, the staff of '79-'80 found this anniversary theme to be an appropriate way to refresh the memories of the students, the faculty, the alumni, and also to give information on the history of MHS. Since the opening of MHS in 1970, there have been nine annuals and nine themes. Conveniently, there are also nine selections in the yearbook. Each theme of the previous yearbooks correspond to an individual section. The various themes are carried out in the sections through candid pictures, artwork, and carefully written text.

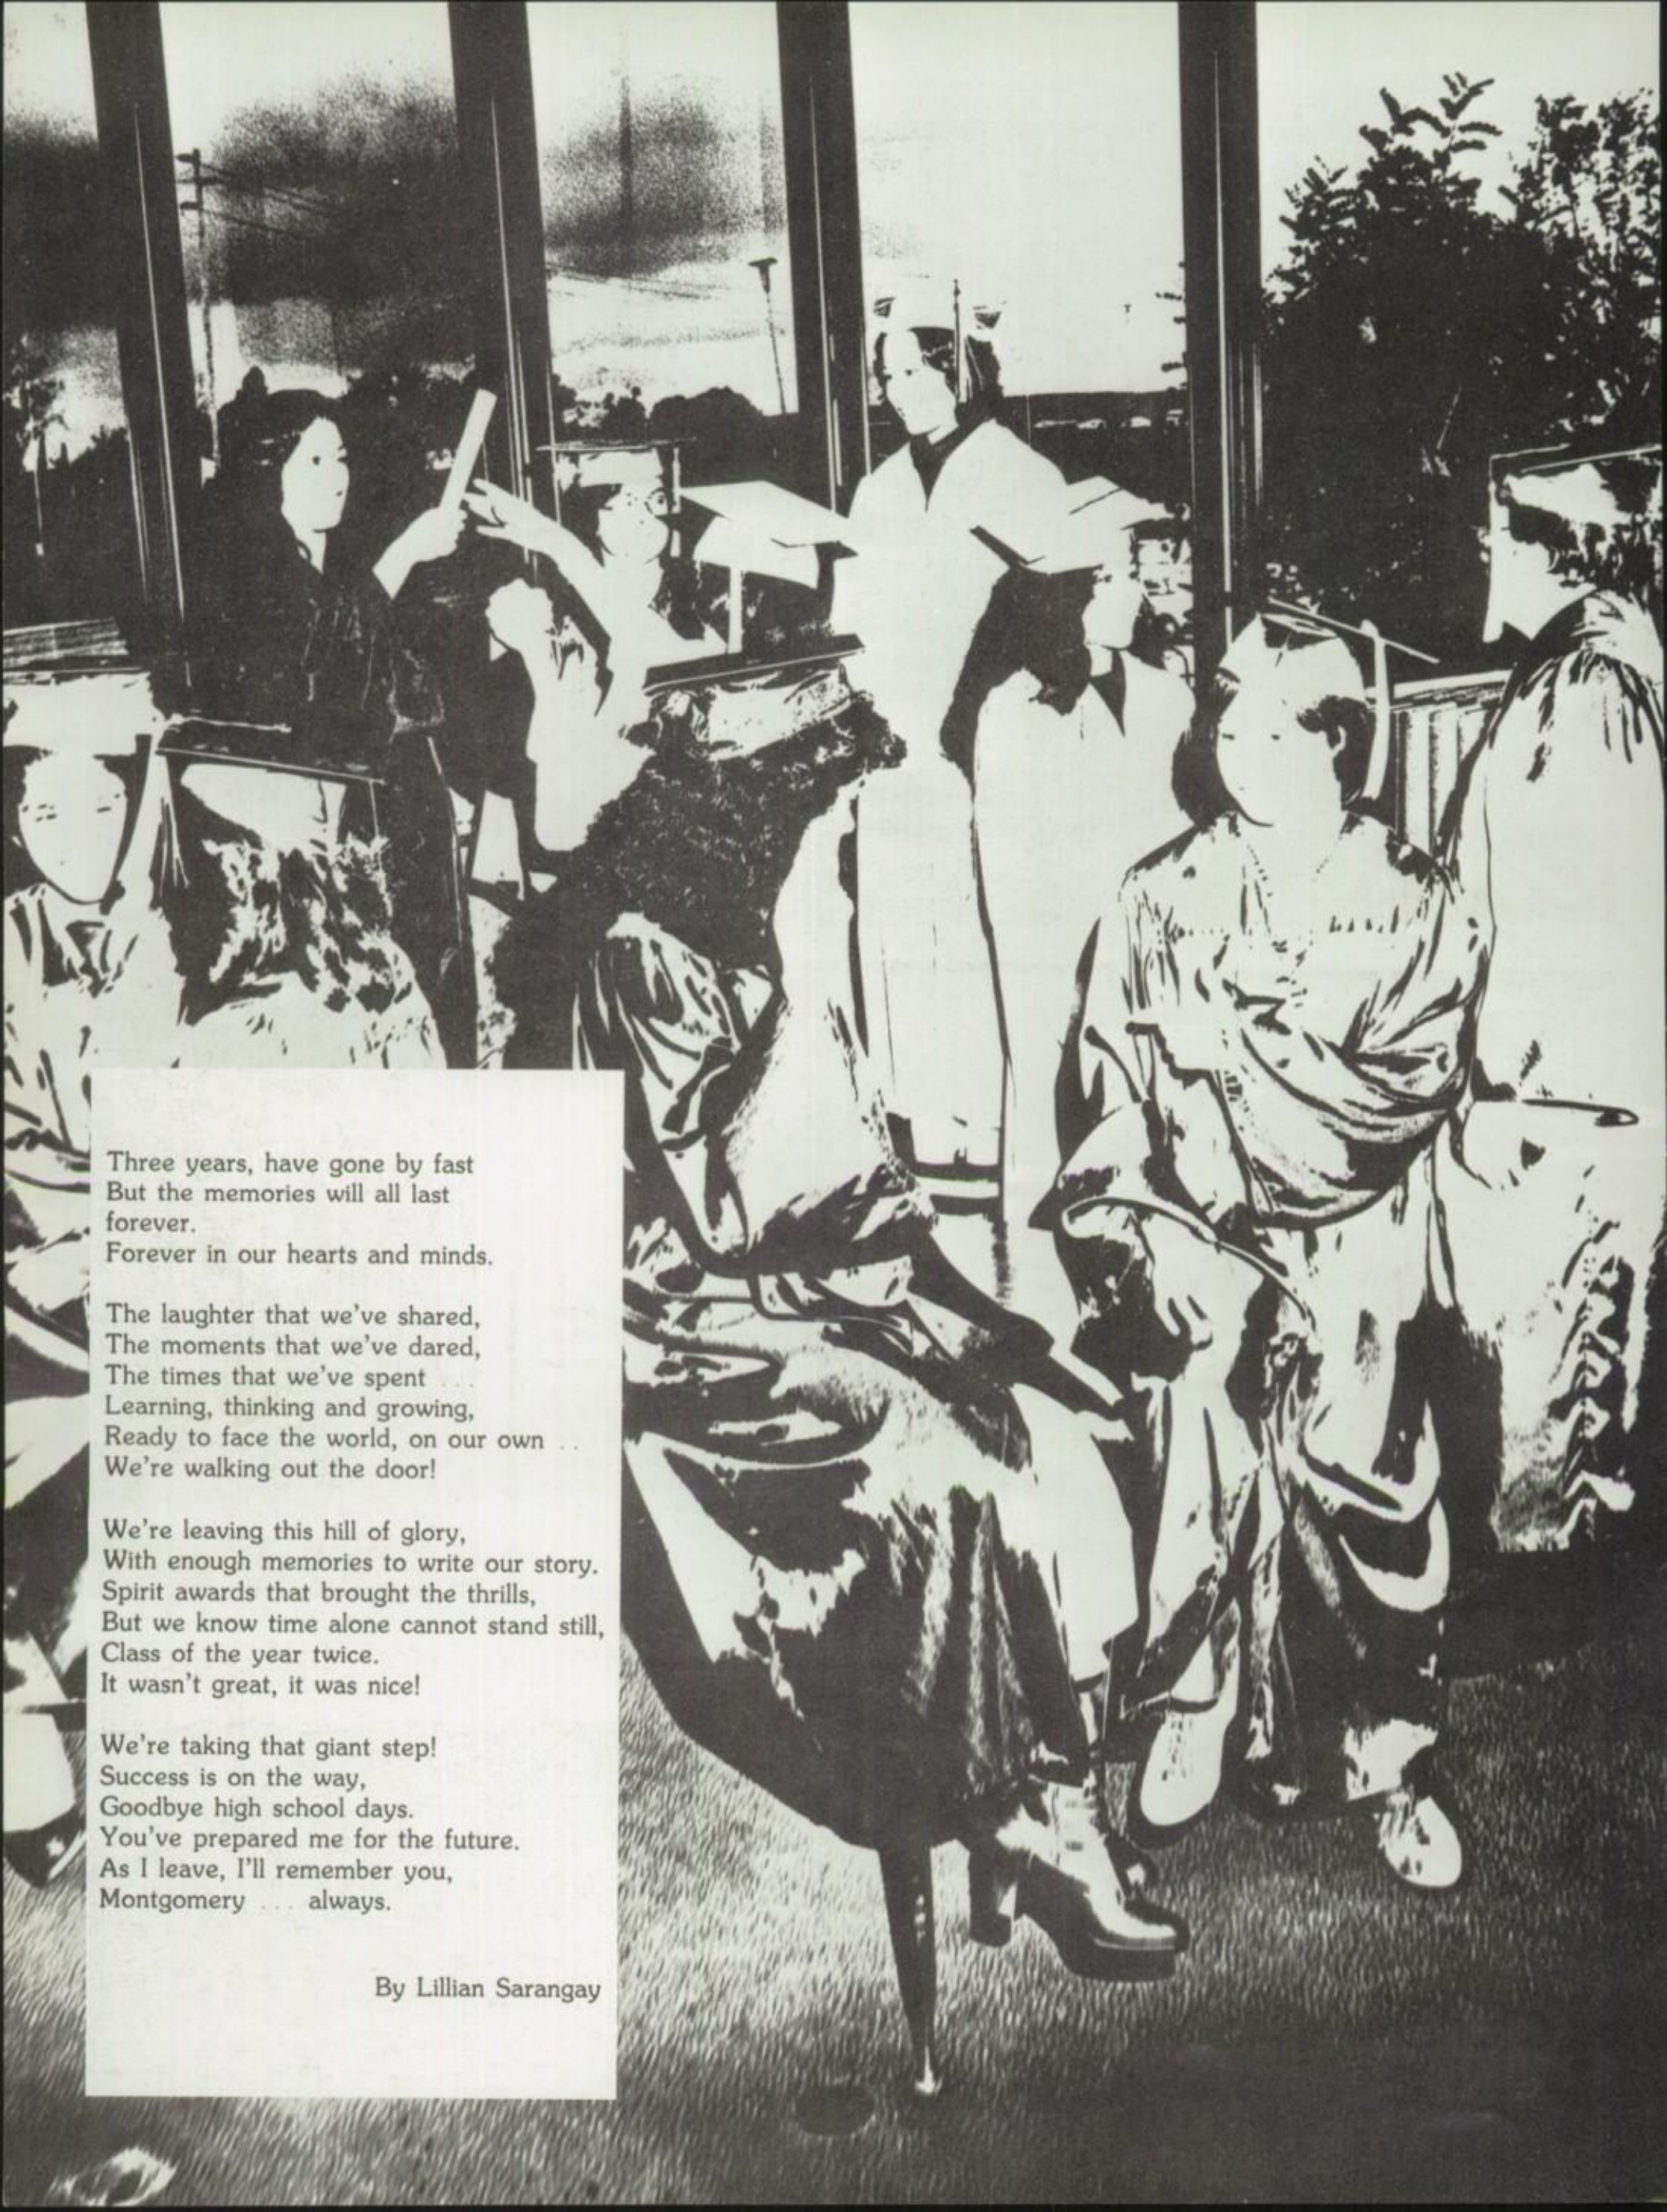

There is an extra feature in the Academics section which is not included in the other sections. Dedicated faculty members who have taught and contributed to Montgomery High School throughout its 10 years of existence are pictured on the subdivision pages of the Academics section.

It is our hope that the next decade of annuals will continue to improve in quality and to delight the students of the '80's. We feel confident that the future of MHS will be a radiant one.

Three years, have gone by fast
But the memories will all last
forever.
Forever in our hearts and minds.

The laughter that we've shared,
The moments that we've dared,
The times that we've spent ...
Learning, thinking and growing,
Ready to face the world, on our own ...
We're walking out the door!

We're leaving this hill of glory,
With enough memories to write our story.
Spirit awards that brought the thrills,
But we know time alone cannot stand still,
Class of the year twice.
It wasn't great, it was nice!

We're taking that giant step!
Success is on the way,
Goodbye high school days.
You've prepared me for the future.
As I leave, I'll remember you,
Montgomery ... always.

By Lillian Sarangay

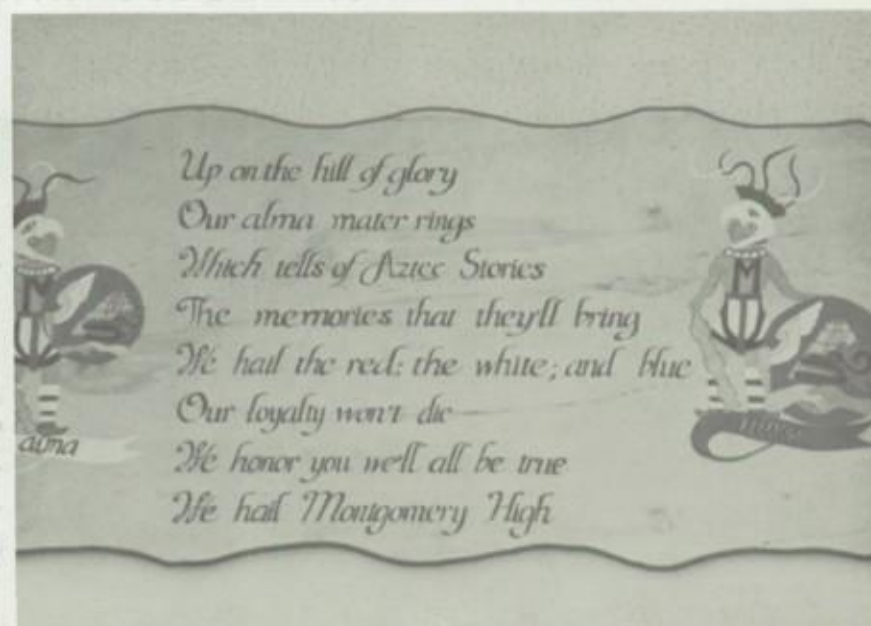

For most of us, the years spent at Montgomery held some sort of special memory. These pages contain only a part of all the sentiments.

The Class of '80 was known for its great enthusiasm and love for our school. Winning the Spirit Plaque only proved that this class had zeal and liveliness.

Whether eating lunch, or just talking with friends, the Senior Lawn turned out to be among the favorite places for Seniors to meet. The lawn provided a scenic view and relaxation for those who took advantage of it.

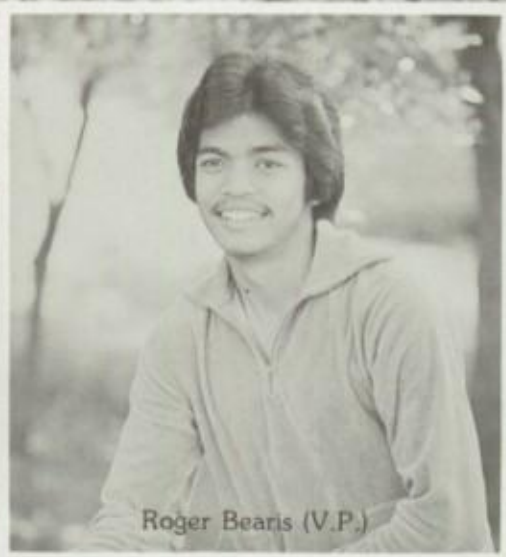

With most Seniors receiving their class ring in their Junior year, the ring symbolizes their graduation from Montgomery. Some may remember trading their rings with their special person, or just treasuring the ring for all it stands for.

All the mementos pictured on these pages are to help the Senior Class of 1980 look back into the years that they spent at Montgomery. To remember each and every moment, whether it be happy or sad. Also to remember the beautiful occasions that made the Class of '80 become THE CLASS WITH CLASS.

These pages are dedicated to the outstanding senior scholars. Some of you may think that achieving good grades is one of the most difficult task that anyone could accomplish in school. However, the seniors appearing here, accomplished this task. They have the confidence to achieve their well established objectives, before entering our harsh world. These intellectual students are being praised in this section of the annual for being able to meet the requirements for CSF.

To be eligible for CSF, these students had to earn a minimum of 10 points for 4 semesters, with one of the semesters being in their senior year. 3 points are given for an A grade and 1 point is given for a B grade, C grades are not awarded points. CSF members are first in line to graduate. They wear white gowns and gold sashes. In addition, this group of seniors have earned a special seal on their diploma, which gives them extra recognition by the college of their choice.

These pages are intended to acknowledge, commend and admire the CSF sealbearers of 1980. These highly motivated and intelligent students may prove to be the leaders of tomorrow.

WHEN WE WERE

A baby is what we were once called in that one certain time of our lives. Most of us enjoyed being one, always wanting to be taken care of by our elders. As we grew older, we realized the importance of life and how it effects each one of us. Our first years of school were an adventure for all of us, as we were setting our goals in life. As the years progressed, we discovered that our dreams weren't as easily attained as we thought possible. As we look through these pages, we see the reflections of the future that is yet to come. We the annual staff, would like to dedicate this section to the graduated class of '72.

"In the beginning," life was so easy. There was always someone there to assist us. However, as soon as graduation was over, society casted a wand over each of our heads, and told us we were now adults. This, in reality, happened at our graduation. It was simple for society to do, although difficult for us to receive. Now there is no turning back. We can only remember the events that helped us reached adulthood, for society has now labeled us adults.

To all the Special Seniors on the 1980 TONALAMATL STAFF: Remember the car washes? The times at Mr. Parr's house when Tessa & Grace had deadlines (munchin' out), meetings during the summer, cleaning the stadium on Saturday mornings (sorry we were late all those times!), the CIF game at Escondido — playing Murder in the parking lot & on the bus ("I accuse!"). Greg: "You freeloader!" You're not getting anymore rides from us! (You're radical!), watching "Dallas" & your legs ("AHM"). Deadlines at Zena's (1:30 A.M.) — oh gosh! Cherie: Hi Dale! How's Chip? Hiding from that guy at Patty's party, killing almost two bottles — shameful! Being "touchy" with Perla & Zena! Tom: MOT. Our favorite aide! Hewey, you and your big mouth! Remember "Mahal kita" means "I love you!" You were such a trip! Remember our photo assignments made you crazy? (Were you mad?) Mike: LOUIE. Trying to peek at our ad — snoop! Guy you guys (guess who?), gonna miss you. At least Mr. Parr has us next year (oh no!). We've got a lot to look back at & a lot to look forward to. Thanks for all the good times and unforgettable memories. Good luck in whatever you do. Remember us — The Kids. "TONALAMATL — WE ARE ALIVE!"

David, Grace, Maggie, Perla, Zena.

We dedicate our school years to one another, because we have made them a very special treasure in our lives. We have great memories of the past & we are happy to be here today and we have a vision of hope for tomorrow. In each other's life, love is a very important asset, but we feel there are times when a friendship like ours can be more significant. We thank one another for sharing one another's happiness and for sticking together when we felt like falling. As we grew up together and time went by we realized that we would become the best of friends. Tomorrow we may take different paths and not see each other for a while but our memories will remain forever . . . Love Always, Aida, Norma, Marie. We also give thanks to some very special friends: Celia Anaya, Alma, Becky, Lucina, Estela, Alejandro D., Tono, Gerardo, Lucia, Laura, Bofis and especially to our parents Olympia, Adolfo & Concha, Mama Mayo & Tia Gela and our whole families who have always helped us all the way. "Quote" — Don't walk in front of me I may not follow. Don't walk in back of me I may not lead. But walk beside me and be my friend forever.

To the many people who have made my stay here at Montgomery a very memorable one — thanks for everything you've done for me. My big brother Bobby — what more could a girl ask for! I bet we're the only brother and sister that never fought, a perfect match, huh? There were some trying times that you helped me get through that you don't realize having done and I hope that someday I'll be able to do the same for you. Gracie "Shorty" Bearis — you still owe me quite a few lunches, remember! We've shared great times together like birds and bees, math class, and of course, basketball. And I still don't like running bleachers, so you'll have to do them by yourself still. Coach DeVore — remember the day I hit you in the face with the shaving cream pie and you forgot to close your eyes? No, only kidding, it was my fault. How about extending our truce a little longer, say about ten years? Coach "Daddy" Aguilar — let me tell you as a coach you're great, terrific in fact, but as a comedian — well let's just say your effort gets an "A" — Only kidding, actually a few of your jokes are worth a giggle or two. Mrs. Benter — of the courses I've ever taken, your typing class has paid off the most. Thanks for encouraging and helping me to develop the skills which have saved me countless hours of sitting in front of a typewriter. Mr. Ashley — your concern and aid with scholarships has helped me to achieve many things that I otherwise may not have. And good ol' Mr. Canedo — I always seem to be running into you, first in junior high and now again here. Well let's just say it's been a lot of fun and with your help I've managed to get through these last few years without hassle. My best friend — Ed, we've made it through thick and through thin and during it all I've never stopped learning about the wonderful guy you are. The past three years have been filled with so many memorable events that I don't think I could ever forget. My appreciation for all that you've given and done for me. Lastly, but most importantly, my parents — mom and dad I can never thank you enough for all the faith and trust you had in me. In doing so, you allowed me to learn for myself and believe me, I learned a few things, some hard way. But what I did learn I will never forget. Thanks for letting me do things my way. I'm going to miss all of you when the time comes for us to go our separate ways. Once again, thank you so very much for sharing a part of yourselves with me.

With love, Always,
Rachael

Welp, I finally made it to my senior year! It was a loooong road, but at least it was filled w/many special times -n- people. There's so many people I want to thank — I don't where to start. I guess I'll start w/my two specialist frenz Karen -n- Genia. We've had some crazy times together, huh? Just to mention a few: racing garbage trucks; going dancing, (acting grown up); always looking for guys (he likes you — I can tell); making bets that we couldn't keep (the 22nd); letters to Dear Abbey (we never did). There's lots more, but it was mostly just being "abnormal" -n- knowing how to have a good time. We've had differences, but it always turns out okay. I hope our friendships will last forever. Genia — go far in your studies, k? Don't forget "our bus stop talks." Thanx-n-take care! Karen — what can I say to my "better half"?! Our memories: that one special nite at fun 4 all & E's house; New Year's Eve — sheesh!; Meatballz (how embarrassing); beach times (Miguel -n- your lotion); highland; "pots-pilf polf"; Antonio-n-Oscar (back seat); dancing in T.J. (glad we never paid); times w/Marco ("I hit a cow once"); running outta gas; you get lowriders — I get B.C. plates (tee hee); ALL of our talks! I wish you the best of everything. Thanx for the help! (May you be blessed w/a million sugardaddies!) Debbie — somehow we drifted, but you're still a special friend. Good luck always! Rock — I miss you still! Thanx for the friendship (not to mention my breakfast! Never forget me, k? Mr. R. — I know we had lots of bad times, but I hope you 'member the fun times too. Someday we'll get along w/no problems. No matter what, you'll always be special to me. Always be happy -n- once in awhile think of your "shoe," k? (invite me to your wedding) Frank K — mi gordo y feo amigo (chiste) I'm just a "white girl," but let's still stay frenz, alright? Gilbert — I know you're a "star," but don't become a stranger please! You still owe me a nite at the movies, (or do I owe you?) Stick to soccer — joking! David G. — (will you still pay for me at your work?) Sorry you didn't do too well in govt. Don't forget me when you're a big time marine and 'member to invite me to your party. Cathy-n-Karyn — I was always "out of it" 5th per., huh? Karyn — stay happy w/Freddy. Cathy — find yourself a Mexican novio -n- you'll do better in Spanish! Both of you have a great senior year-n-don't forget "un gata"! To the 4 craziest craziez I know — Isabel, Blanca, Flor y Norma — what can I say?! You guys will always keep a special place in my heart. Gracias por sus "help" con mi espanol y con Damon. Dear Las Aztecas,

We, the 1979-1980 drill team officers, would like to thank all of you for making this year very special to us. Don't forget: carrying chairs, bee attacks (they followed us everywhere), Hawthorne Parade (marching forever), our summer picnic (shaving cream — ugh!), running from Mt. Miguel to Band Pageant (but it was worth it — eat your heart out C.P.), all of our 1st places, and SWEEPSTAKES at C.V.!!! Miss Melino — We hope we filled your 1st year with us w/some beautiful memories. Thanx for the dedication, organization, and caring! Kim and Lori — Us Las Aztecas wouldn't be what we are right now w/o your support, help and most of all your confidence in us. To the girls leaving drill team — Best Wishes. Never forget your times as a Las Azteca. Those of you coming back — Please keep up our #1 reputation!

Best Wishes,
Kathy, Tracey, & JoAnn

Well, what can I say? How do I begin to recall all of the memories and feelings that I've shared with my friends these past years. I really don't know, but I guess I'll try. First of all . . . Debbie. How long has it been? Since my ninth birthday party. Do you remember . . . four square in the street, the "green box" (our favorite hangout), jacks, pretending to be the Osmonds, our "cool" 10-speeds, Jacqui, Cindy, Windy, Juan (and friends), Tito and Paul, Peter and Tony (Ha), my Quinceanera, pink, sneaking out and T.P.'ing, Expressions (What an experience), All of those notes in Tempchin's class, and so many more things. You've been a real good friend and hope you'll be happy with Ben and in all that you do. Lynda — "Mugsie," 'member cruising Highland (your first time), "Calm down Lynda." Antonio and Terio, Christmas vacation (how many times did we wash our cars), The Chula boys (what were their names?), "Let's cruise Pep Boys" All of our "long talks." You know that I never meant to hurt you. I'm sorry. You've helped me through some rough spots & I'm always thankful. Be extra careful — Okay. Ann — Gucci-ed out, "C'mon, C'mon," all that make-up we put on in Mrs. Melino's class, all of your helpful advice about my, "nose-picking in public" habit. Thank you. I really think it helped. I hope one of these days you will find all the excitement & glamour that you deserve. Genia — Remember how we met? Fighting over M.B. I hereby declare him yours. Okay? How about all of the excitement in Agie's 3rd period, all of those crazy summer practices, always taking the long way home, "Let's go through the Villa," SOMETIMES, our anniversary -22"Rollo," Expressions, "He asked me to dance." Oh Yah! I wasn't racing that garbage truck — I was trying to pass him up. You big nut — be good!! Johnny — El Johnny Boy, veterano of the big Del Sol. Let me see now — Okay, remember "crusin", (December 14,) "grocery shopping," at Alpha Beta and getting baby juice (I still have the bottle), how about when you embarrassed Jose and me at McDonalds by acting retarded (Doy, Doy), Cruising on your sister's bicycle, "I'm so proud," eating all of those sugardaddies, "burger's," "Um, munchies," the games (basketball, soccer, wrestling), that dumb "banana" story that always made me laugh, my flat shoes, telling on you to Mr. Montrose. I'm sorry, but Jose made me do it. Well anyways Johnny, you're a real special friend and try to always be careful, but most of all always remember, "I love you so mosh." Next Kathy — Gosh, "comate un petho," "Que?" March 22, memories of "Fun-4-all" with E.T. & R.R., getting soaked on the bumper boats, "Reunited," "The car is shaking," the 50's dance, our tight pants (how did we sit down?) J.C. (dry-mouth) noticed you (AR). "Corvair," Johnny Angel, "I broke your car," our D.D.'s — you and Marco and me with E, E, A & A. Antonio and Oscar (you and I always ended up in the back). Meatball's by ourselves (how embarrassing), the guy on the motorcycle ("Let's follow him"), "True Confession's" until 4 a.m., Winchell's everyday, wrestling finals, Grease 6 times "Look, there's 2 for us. I get the tall one," "If all else fails we could always go for Ronnie and Mike," "Do you have any cookies" "I'm so happy, Are you happy? I'm happy if you're happy." The happy, the mad, the good, the bad — We've been through it all together. I know I can always count on you. You'll always be "my-other-half." There's a few more that I have to mention — Jose — Mr. Happy, El goone, You always know how to make me smile — be good. Raymond — you big dummy — why did you leave? Remember all the favors that I did for you & oh yah, I wish just once you would do something on time. Frank — Pelionero. The Las Aztecas — Oh boy, summer practices, rushing for Band Pageant learning all of those parade routines, our sweepstakes at the Chula Vista Review, our drowning at Miss Drill Team U.S.A. Oh well all I can say about the whole thing is — WHEW!!! To — Lili, Arleen, May, Cherie, Joe, John P. Irene, Karen, Flor, Norma, Blanca, Isabel, Susana, Donald, Coach Pete, Coach Aguilar and everybody else, "HEY." Most of all, my family. I know that I'm a big spoiled, rotten brat and that I ask for too much, but I'm growing out of it. Try to be patient. Okie-Dokie? To all of you — please, Keep in touch and Take Care.

Love Karen

I can't believe it's over. High School; those three years gone by so fast. Well, it was GREAT! while it lasted. But most of all it was an Unforgettable Experience. This is going to be hard to do, but I'd like to say something to all my frenz: The thing that I did first was try-out for letterettes. Through that, I met Nae. Oh Nae! We've been through so much. Remember Arroyo in 77-78? Boy it's hard to believe we made it. Then our Jr. yr. Whenever you need me, I'll be there. Let's see: How about El Primero? What a drip!!! Then, our last place at Arroyo in '79! And of course, STATE CHAMPS!!! Hold that smile! To my new band director and letterette advisor: Mr. Johnston, I would like to say this: it was once a dream to be a certain high school's band director & it was another dream to be a letterette captain. Who ever said dreams never come true? Good luck and best wishes, you're going to be one of the districts best. In the fall of '78, my American Lit class was a new beginning for the special rapport between Mrs. Sheila R. Benter and me. Remem: Shirley Jackson? and being in your first Death Acceptance was a memorable experience. By being your shadow, I've learned to be a clerical aide & a receptionist. I'll always be your "pretend daughter" ... but if I had to say one thing that I learned from you, it was that of living. Now my friends ... it's tear-time! How can I say everything in such a small area? Cindy — I hope you'll always be there. I'm here Remember resigning? I'll never forget my lil' Ate. Karen — we've grown so close! Be patient ... Teasing you ... red eyes ... crying ... band pageant of '79 ... so many wonderful memories ... it happened so fast!!! Rog ... we both know what's real and what isn't ... and this is real. I hope we never forget this special love for one another. I love you as much as I know of love and I know enough not to be fooled. Please remember I love you. Our dreams ... our Love ... take care babe ... I hope all my friends enjoyed high school as much as I did. To little words too much love to express ... Take care everyone ... God Bless ... "Our moments were mere seconds of a life time, but more important for we shared that which we could." A lot of things happened within these past 3 yrs. Experiences that will never fade, but rather grow deeper inside with each remembering. Such moments with Cin: hey, we've been thru a lot together, but no matter how much we pull & tug at our friendship, we always seem to snap back into place. We shared many times together — thanks. Berne, as special and dear as you are to me, I think that right now, I can only thank you for all that we've shared & hope that things will be all right for both of us. Terry, gosh, I don't know how I survived my senior year w/o you. Your love, care & understanding were more than I could ever ask for. Freddie, thanks for being the special guy you are — 'member me always. Abs & Karen, thanks for listening & just being there. Edgarleen, the Adventure & Brat. There are many things I have learned and that I remember from my three years at Montgomery High School. This writing is in commemoration of them. I remember all my friends and the fun we had. Genia: We had a great year in ASB despite all the hassels. I won't forget all the running around before Sweethearts in our junior year. But it was fun. I don't have enough space to write everything I remember. Thank you for your company, for listening and for being a friend. Keep in touch. ASB — I've learned so much from being in ASB. We all had fun together, that's something I'll cherish for a life time. When I was a sophomore I was so shy and introverted, but after that year I learned and now there is little I would not say or do. Mrs. "C" and Mr. Ferguson. I thank you for everything you have taught me, both about accounting and about dealing with people. Thanks for all the "good" jokes, through them I learned how to be very diplomatic and respectful to my elders. Mrs. "C" there is no way I can thank you for everything you've taught me. Mr. Xander: You opened my eyes to some ideas I didn't really want to see, but I'm glad you did because I learned from them. I'll come back and visit when I can. Lisa: You were the first to make it through school. You've got a head start but we won't be far behind. Good luck at school. Val: You're the youngest of the gang and probably the happiest. You have the best life can bring, happiness. Marisa: Crazy you, We had lots of fun joking together. Remember if all else fails we can go insane. Gloria: You've always been so shy. I know how much you enjoyed calculus, it's a shame you had to leave. Sara: What is life? Lets contemplate together. Just think this summer we leave the nest. It will be hard but I know we can do it. Remember to save your money, we'll need it. There is a whole big new world out there that is ours for the taking and I'm ready for it. To the whole gang: So what if we are crazy, we like it. We must all get together from time to time to contemplate the lines. To Greg, "the love of my life," thank you for all the support. You are the only one I can yell at and I love it. Only a few more months to wait! What does time matter anyway. Remember good things come to those who wait. I love you. Lastly to my parents: Without you I wouldn't be here. I love you both very much even though I don't say it too often. Thank you for everything you've given me and taught me, especially for teaching me to be strong and independent. God bless you to all.

Love,
Ann

Well people we're all about to graduate, (most of us at least). And I'd like to just say a few things. Bob, You've been a good friend and a good influence, you taught me what hard work can do. And your also about the only other person who I can say is more spoiled than myself. Fred, you little piglet you, It's been great knowing you, and whens the next spaghetti dinner. You two are great friends and we got to go out and gulp, gulp, gulp. And maybe check out another movie or two. I hope you two get everything you want in life. John, my old Pal, we've had some good times & I hope they continue for a long time, you have to be the most Problem-Plagued Person I ever knew, but just use some Patience and things will work out. Tell you what, lets all go out on another fire-extinguisher run, and tell the world to go to . . . Football was fun and maybe we can continue in college. I don't think we'll ever forget ole "Otay Slim", the best coach I ever had. Well on to my favorite person, Pattie, What can I say except, I Love You. I hope you can just put up w/my insecure nature. We have had a lot of good times and I'm looking forward to the future. By the way, whats for lunch? Mom & Dad, you've been very good to me in my life and I'll never forget that, A little overprotective at times but I respect you for that. Thanks for all the help. As for the rest of my pals, Suzy K., Keep looking, Mister Right will come along. Lomu, Tydingco, you two have to put things together next year, work hard & you can do it. Tiny, try and lose some weight, my car can't stand it. Robin, I hope you get everything you want in life. Coach Pete, Don't worry you'll find a heavy weight somewhere. As for the Class of '80, lets do something worthwhile in life!

Abey's Log, Stardate 8001.26

I'm recording this during January, and I've thought about what I might want to say in this personal ad. I suppose I should first and foremost congratulate and thank Mary Lou on her graduation and for selling me this ad. It's difficult to resist nice girls. Congrats also Debbie, Tarri, & Lori. Thanks for attending to the ship and keep on trekkin'. The world needs more Edith Keeler-types like you. For Beulah, I wish much happiness. Going through my memory banks, I find these stand out: 7712.29 ("CE3K"), 7812.18 (?), 7906.03 ("Superman"), 7906.09 ("Love at First Bite"), 7906.18 (at the Rueben E. Lee and "Rocky II"), 7912.07 (the anniversary of Pearl Harbor — I mean, "Star Trek — TMP"), and 7912.18 (?). Take care of Thumper and Snoopy. I can say so much more but I think they're all in "Serenata d'Amore." You're a special friend and I'll always remember you just the way you are, my Close Encounter of the Best Kind. Sayonara, Mitsu. A special congratulations to my friend, Mr. Burns. All those wild and crazy times we've had were great. Remember all those quality flicks we saw, like "Laserblast" and "Starcrash"? Sheesh. Remember the third quarter charges? "Paul's Groove"? Remember all the hard times, the heartbreaking times, the glorious times, and everything else? By the way, what did you mean by "The Best in Their Business"? Shamellia, don't be scared of college. It's like high school, only harder. I'll see you up here next year. Congratulations also to Suzanne (have you grown?), Arlene, Nina, The Pyramids, Eunice, Celida, Flossie, Carl, Joyce, the Surbers, Jose, Ed Baca, Rachael, Loreto, Lisa and Leah, Buzzard, Cecil Turtle (climbed any ladders lately?), Nanette (my favorite surfer), Sandy, Tim, Paco, Jeri, Mike Swetof, Jo Ann Matsuda, and Rhonda (see, I remembered you). And Montgomery High School, my best wishes on your celebration of a "decade". Congratulations, class of '80. Time to forge on ahead to bigger and better things. The human adventure is just beginning. God bless you and may you all live long and prosper.

In the past ten years, Montgomery High School has been known for its desegregated student body. Students of Oriental, African, Spanish and European descent made up the student body. At first, students seemed to be very uncomfortable around other students of different ethnic backgrounds. This led to Montgomery's reputation as a "radical" school. In fact, there was a minor incident that happened at Montgomery which the media exaggerated. The whole community was upset because of this conflict among the races. Later, however, people began to realize that Montgomery wasn't as radical as they thought it was. They found that the students were just as friendly as any other individuals, no matter what their nationality.

Today, Montgomery High School is recognized as one of the most pleasant and friendliest schools around. Understanding among the races plays an important role in achieving Montgomery's recognition. This section of the book is dedicated to the students who made everything possible.

One may wonder, "What has the class of '81 done that makes them 'second to none'?" Unity, which has brought the junior class together, has played an important role throughout the past two years. As sophomores, they contributed to campus beautification by painting the ticket booths and the Aztec "M". Fundraising activities such as a "Class of '81" iron-on sale, a carwash, and a stuffed animal expenses during their senior year. Toward the end of the 78-79 school year, they sponsored a trip to Magic Mountain. The growing spirit of the Class of '81 is also an important factor that is helping them achieve their title. These accomplishments show that they are truly "second to none".

Peace Among the Races

Put aside the prejudice
and the falsehoods we pretend
There is another way to live
let us come together as friends
Friendship is a good foundation
for our lives will be enhanced
Hatred can grow old and die
if peace is given a chance
Being friends with each other
is the way it ought to be
Not with race against race
we should live in harmony.
Let not color judge your mind
but let the people themselves be the
basis
Then we could be one as a whole
and there'd be peace among the races.

IT MUST BE PEACE WITHOUT VICTORY. W. WILSON

1974

We see the memories which were once our future but now our past. Our Home of the Aztecs is an example. At first it was a school without any type of reputation, but now it displays its own personality which is quite unique. It became an integral part of our community with strong preparatory programs. The Girls Athletic Association (which is girls' sports) was once called Girls League. It then changed in 1974 because girls wanted to participate in an inter-school athletic program. These few things were once the future and are now our past.

SOPHOMORES 1982

Now that the days of the future have past. What was once a dream is now a memory. Yesterday is extinct, today will soon be too. Look toward tomorrow, for it is all we have left. The past is an illusion, today is reality, tomorrow a dream. We live day to day, yet we possess the key that unlocks the door to our future, and today has prepared us to open it.

In looking back
to my memories
I recall the times
of finding my identity
of sharing and living with others.
For in this place
I have found the key
which will eternally lead
me to my future.

I watched the child upon the strand,
Her face with ecstasy alight,
Holding within her small cupped
hand
A treasure for her heart's delight.

The lapping waves, the sea gulls
play
Far out, the oceans rise and swell,
The golden wonder of the clay,
She captured in one fragile shell.

"Drop a Pebble"

Drop a pebble, in the water;
Just a splash, and it is gone;
But there's half a hundred ripples
Circling on and on,
Spreading, spreading from the
center
Flowing out to sea.
And there is no way of telling
What the end will be . . .

IMPOSSIBLE DREAM

Students often have dreams of many things. These dreams which seem impossible may someday be reached. One must be willing and determined to fulfill a dream no matter how faraway and impossible it may seem. Until this is done, one will not be satisfied. An individual has to continue striving for that "Impossible Dream" and someday that person may reach that unreachable star and make that dream possible.

As shown through the years, Montgomery has reached some unreachable stars. Dreams thought to have been impossible have become realities. The building of our Aztec Stadium has been one of our greatest accomplishments. The representation of the Marching Units, who have received Sweepstakes Standings, and Las Aztecas Drill Team, who became California State Champs has honored our school with a sense of personal pride. The ultimate dream of the Aztec football team became a reality with an outstanding victory over a highly rated Sweetwater High. These are just a few examples of Montgomery High's progress, which has come a long way and will continue toward many fine achievements.

ESTUDIANTINA

Estudiantina is a vocal and instrumental group created by Ms. Carol Murray in 1974 to promote Mexican-American Cultural Music. In the span of five years, the organization has enlarged from a group of only 20 to one of 43. In addition to annual performances in elementary and jr. high schools, Estudiantina has also displayed their musical talents and showmanship at Disneyland. Their dreams of success have since become a reality.

Estudiantina consists of: Beatriz Alvarez, Mario Alvarez, Acela Arriaga, Liz Arriaga, Lucia Arroyo, Patricia Arroyo, Fernando Burgos, Leti Caracozo, Susana Caracozo, Patti Casillas, Rose Castro, Maria Elena Contreras, Mario Contreras, Jesus Cortes, Maria Lidia Cuen, Gloria Davalos, Teresa Duran, Ilia Enriques, Cesar Estrada, Laura Felis, Ricardo Fisher, Carmen Flores, Silvia Garcia, Angela Gonzalez, Lucia Gutierrez, Amalia Herrera, Maria Leon, Mely Leon, Socorro Leon, Luz Moreno, Adriana Najera, Sergio Navarro, Sergio Orozco, Maribel Ortiz, Iram Perez, Lourdes Ramirez, Roberto Ramos, Leticia Reyes, Carlos Rodrigues, Jose Rubalcaba, Monica Rubalcada, Lorena Sepulveda, Edna Serna.

Advisor — Ms. Murray

The Black Student Organization (BSO), has been a part of Montgomery since 1972. It was founded by Ms. Brenda Balthazar who served as the club's advisor for eight years. Her position was assumed by Ms. Cathy Clark and Mr. Michael Johnson. In September of 1979, a luncheon was given in honor of Ms. Balthazar at the Black Frog Restaurant. The club presented a plaque of appreciation for her many years of service as their advisor. In 1975, BSO changed their name to Kujichagulia in an attempt to make closer ties with their cultural background. Kujichagulia is one of the African Swahili principles which means self-determination. In their case, they were to take steps in determining their own destiny. The club's colors are red, black, and green, each color having its own meaning. The red symbolizes the blood shed in the quest for freedom. Black stands for the people who are necessary for survival. Finally, land and/or money is signified by green. Kujichagulia has made their dreams of showing their pride and self-determination come true. Kujichagulia consists of: Zelda Adams (Pres.), Shelly Smith (Vice), Cynthia Sauls (Sec.), Velma Dixon (Treas.), Robert Shuford (Sgt. at Arms), Rochelle Adams, Darlene Bey, Mildred Collins, Jeanette Collins, Eric Ellis, Evonne Ellis, Bernadette Garland, Rudy Gray, Debbie Harris, Sharon Owens, Angie Smith, Sharon Wallace, Genia Webb.

MECHA is one of our oldest and most respected clubs at Montgomery. It was formed in 1971, the school's first year in existence. Since then, MECHA has grown into a fully established organization whose purpose is to raise money for college scholarships for deserving students. They raised money by sponsoring movie nights at school, candy sales, and other fund-raising activities. To make students aware of scholarship opportunities, they invited guest speakers and attended a MECHA conference at San Diego State University.

NOTHING GREAT WAS EVER

ACHIEVED WITHOUT ENTHUSIASM

THE A.S.B.

The A.S.B. has succeeded in making many of their dreams come true. In a ten year period they have had four Deans of Activities. The school opened with Mr. Frank Giardina, as the A.S.B. Advisor. After his departure, Mr. John Barnhart took over, followed by the one year supervision of Mr. Ernie Stewart. The responsibility of the A.S.B. is now in the capable hands of Mr. Fred Ferguson who has done a fine job for the past three years as Dean. A few of the responsibilities of the A.S.B. includes making the format for Montgomery's assemblies throughout the year. Athletics and night events are also a big part of the A.S.B.'s duty. The Student Store sells a variety of products ranging from "munchies" to school supplies for the students. The A.S.B. has made some of their own personal ambitions come true, particularly in A.S.B. camp where all schools in the Sweetwater District meet and compete in skits and Olympic Events. This year our A.S.B. won 1st place for their skit, "Hollyrock". Not only has the A.S.B. made many students' fantasies of high school come true but also their own dreams of success!

The Moctezuman Staffs' dream was to send out the best quality, monthly, newspaper to the Aztec student body. The first two years, the staff was guided by Ms. Carol Pugner. The advisor position was then taken over by Miss Jennie Warmer, who still holds the position. Beginning with the year of 78-79, the format of Moctezuman was changed from that of a newspaper to one of a magazine. Many of the Aztecs seemed to prefer this magazine-style paper containing a variety of entertaining facts and opinions. A few of the articles are on controversial issues which directly affect the students, others are on current events which occur on campus. In addition, "Viewpoint" is a new column which allows any student to voice their opinion on any topic. The paper also keeps the students updated on many school activities including sports. The dream (once thought impossible) of capturing the attention and informing the students was made possible by the dedicated and hard-working Moctezuman Staff. The Moctezuman Staff consists of: Joann Arciaga, Lucille Baca, Scott Baldwin, David Courchaine, Robert Dunne, Edgar Gorospe, Clifford Jomaud, Lloyd Ladrillono, Mario Lopez, Rosemary Pinpin, Kevin Rahmann, Ann Schwantner, Christina Sloas, James Springer, Nimpa Villarin, and James Westergaard.

For many years, under the supervision of Ms. Martha Stead, the talented students successfully displayed their expertise to the viewing audiences. Now under the new direction of Ms. Linda Elliott, the dream of superb performances will be demonstrated. With Ms. Elliott's special way of relating to her students, the highest level of showmanship can be expected.

This year the Vocal Department has returned under the new leadership of Ms. Mary Rahimpour. She has had many years of musical experience, including five years as the conductor of the Montgomery Jr. High School Choir. The high aspirations begun by Mr. Cusack can be fulfilled by Ms. Rahimpour's experience and dedication. "This Time Called Life"

As time goes on
People go on,
Taking life as it comes.
Like a spider's web,
With its miniature and eccentric patterns,
Life is too short to waste a single day.
Our web of time is minute and precious,
So use it wisely
And enjoy it to its fullest.

Drum Major — Vic Betrus

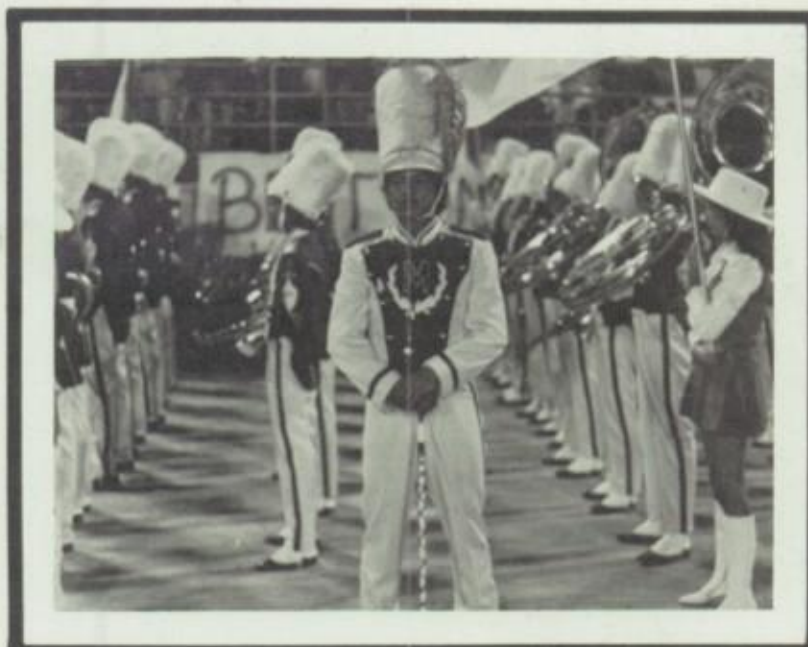

Band Director — Mr. Paul Johnston

The band's musical talents have developed through the years of Montgomery's existence. In 1972, the marching band won its first 1st place trophy. In the same year, the band received three major awards. In the school year, '77-'78, the talent of the entire corp won them an abundance of trophies, including six at El Primero. The rain at the El Primero Band Review didn't prevent them from bringing home the 1st place trophy and The Music Award. The creativity of the halftime shows exhibit Montgomery's own unique style, including precision drills and the occasional use of dance steps. This style has made the Aztec Band a truly extraordinary group of showmen.

The band's virtuosity is also exemplified by its many concert performances. At the start of the decade there existed one Concert Band, which received a rating of II (Excellent) at their first appearance at the Southwestern College Festival. For the last three years, three concert groups: Concert Band, Wind and Percussion Ensemble (which is for the more advanced musicians), and Symphonic Band (a combination of both) were entered in Festival and the majority of the ratings received were I's (Superior). This Superior grade persisted even after more difficult musical selections were chosen.

These past accomplishments of the band were due to the help of Mr. Michael Cummins. His particular way of communication to his students motivated them to give the best possible show. The new conductor of the band is now Mr. Paul Johnston, whose new and different style was expressed by the Marching Aztecs' "Fantasy" performed at this year's field show and the 12th Annual Band Pageant.

Montgomery's Marching Units were given the honor of being the finale performers in the 7th Annual Band Pageant. This was quite a dream come true because the position of performing last had been held by Castle Park for several years. This truly displayed the Aztec pride and dedication. The performance proved to be a success as demonstrated by the spectators' standing ovation. Band traditions are also present at Montgomery High School. One of them is the Pops Concert, which is presented towards the end of the year. The letterettes, pennants and the Las Aztecas Drill Team execute their award winning routines between the popular numbers performed by the band. The teamwork of the Marching Units has made many memorable dreams possible.

Smile, snap and flash are the key words for the Las Aztecas to remember. Keeping these words in mind proved to be beneficial in building a reputation for being "the drill team to look out for". A few of their credits include a victory over their long time rivals (the Castle Park Trojanettes) in 1974 and being California State Champions in 1978 and 1979.

The best performances of the Las Aztecas have been made possible through the assistance of several remarkable individuals. A great deal of time and effort has been given by the Randall twins, Kim & Lori. They were the choreographers for many of the trophy winning routines. For this devotion we give them our many thanks.

1977

IN THE YEAR 1977

In the year 1977, Great Movies such as . . . "The Way We Were", "Airport '77", "Godfather", and "The Sting", were just a few of the many hits in that particular era.

Ever since the first silent picture show, movies have played an important role in American life. They have been one of the main sources of entertainment, outside the home, for young and old alike. We, the annual staff of Montgomery High School, are dedicating the theme of the Tonalamatl to all the great movies that made it happen for all people of all ages. Appropriate movies have been selected to introduce each section of the book."

The pyramids, kicks, and flips that you see on the field, or the court at every game didn't happen overnight. The Aztec cheerleaders have been practicing hard since last June. They attended a cheerleading camp this summer to improve their skills. While there, they won three superior ratings in competition. And that's how Aztec crowds rate them, too! Led by Captain Cindy Caillo, these hard-working girls are not only acrobats, and dedicated fans of all Aztec teams. They are truly multi-talented, and appreciated for a job well done.

Go red, go white, go blue, FIGHT, FIGHT!!!
 The Aztec team is gonna win this game tonight.
 Mighty, Mighty Aztecs, that's our name
 Power-N-Victory and we're on to fame.
 All hail the red, white, and blue, as Aztecs we'll be true.
 We're on the war path, all will fear our strength,
 Hey, Montezuma, we're with you!

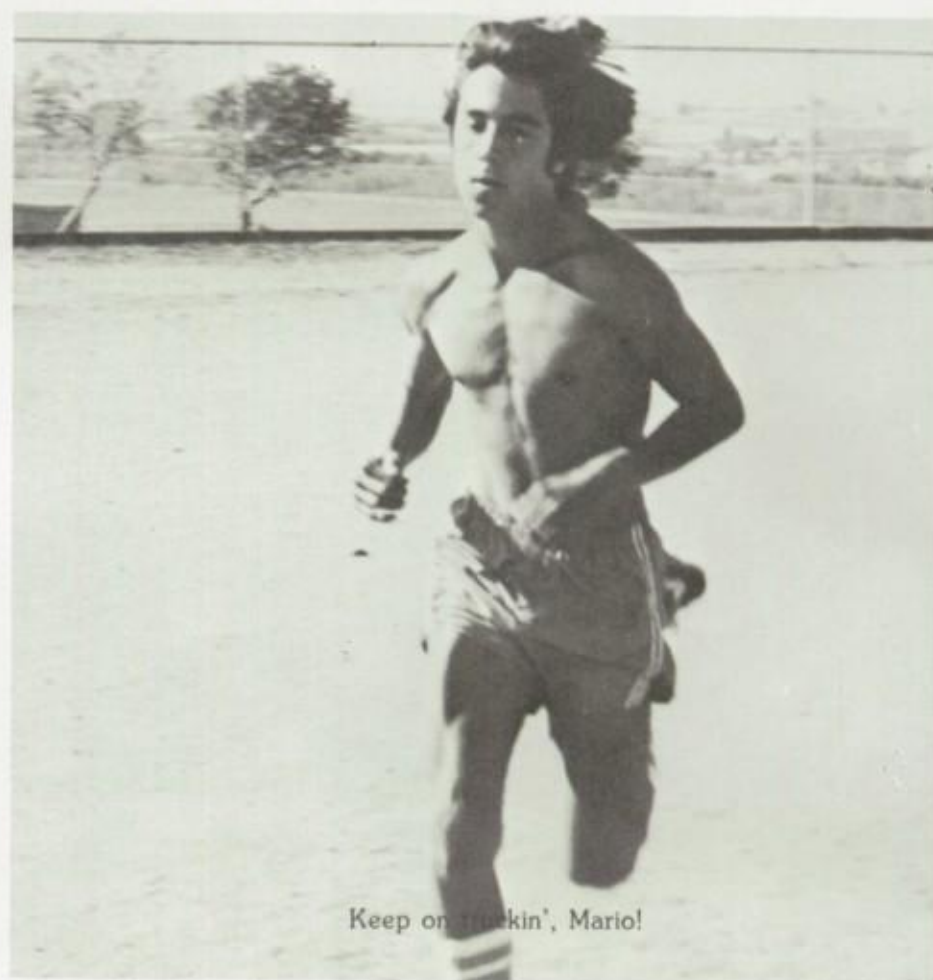

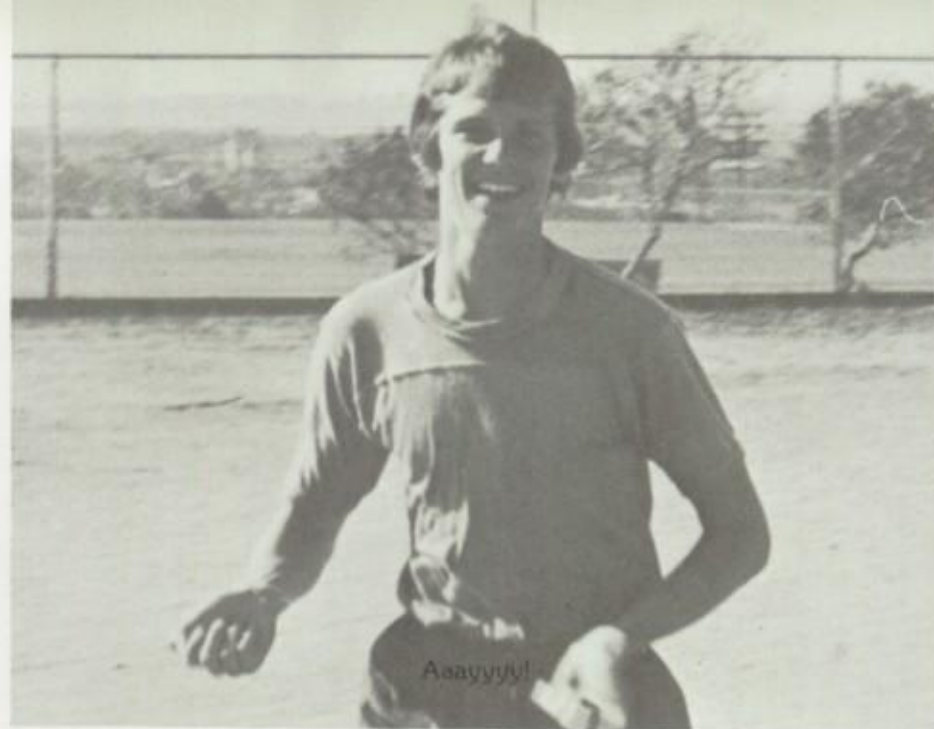

Go red, go white, go blue, FIGHT FIGHT!!!
 We have got the fire to light the future bright.
 We will cheer our team on to victory
 We will wave the colors of Montgomery.
 Fight on, right on, right to the top
 Our Aztec pride will see us through.
 We've got the spirit, so let's shout it loud and clear,
 Hey, Montezuma, we're with you!!!

MARATHON MAN

Bionic man, eat your heart out!

Keep on truckin', Mario!

"Leader of the Pack"

Ooh baby! Hold me back!

This year's Varsity and Junior Varsity Cross Country teams had a fairly good season. It wasn't as hopeful as they expected, but it could have been better. To be a distance runner requires grueling hours of work and self-determination. The long distance runner is motivated by his "inner-self" wanting to be recognized as a future "Marathon Man". This year's top Varsity Marathon Men were juniors, Peewee Schaeffer and John Kiser, and senior, Hector Mejia (Capt.). Special thanks goes to Mr. John Quigley for volunteering to coach the teams and for trying his best to get the teams to compete on a more competitive level.

Feet don't fail me now.

J.V. cheerleaders, ready to go

Here's what we're gonna do,

We're gonna introduce ourselves to you.

I'm Toni, an Aztec true,

I'm Lia, with pride all through.

I'm Liz, my spirits high,

I'm Jenni, my pride won't die.

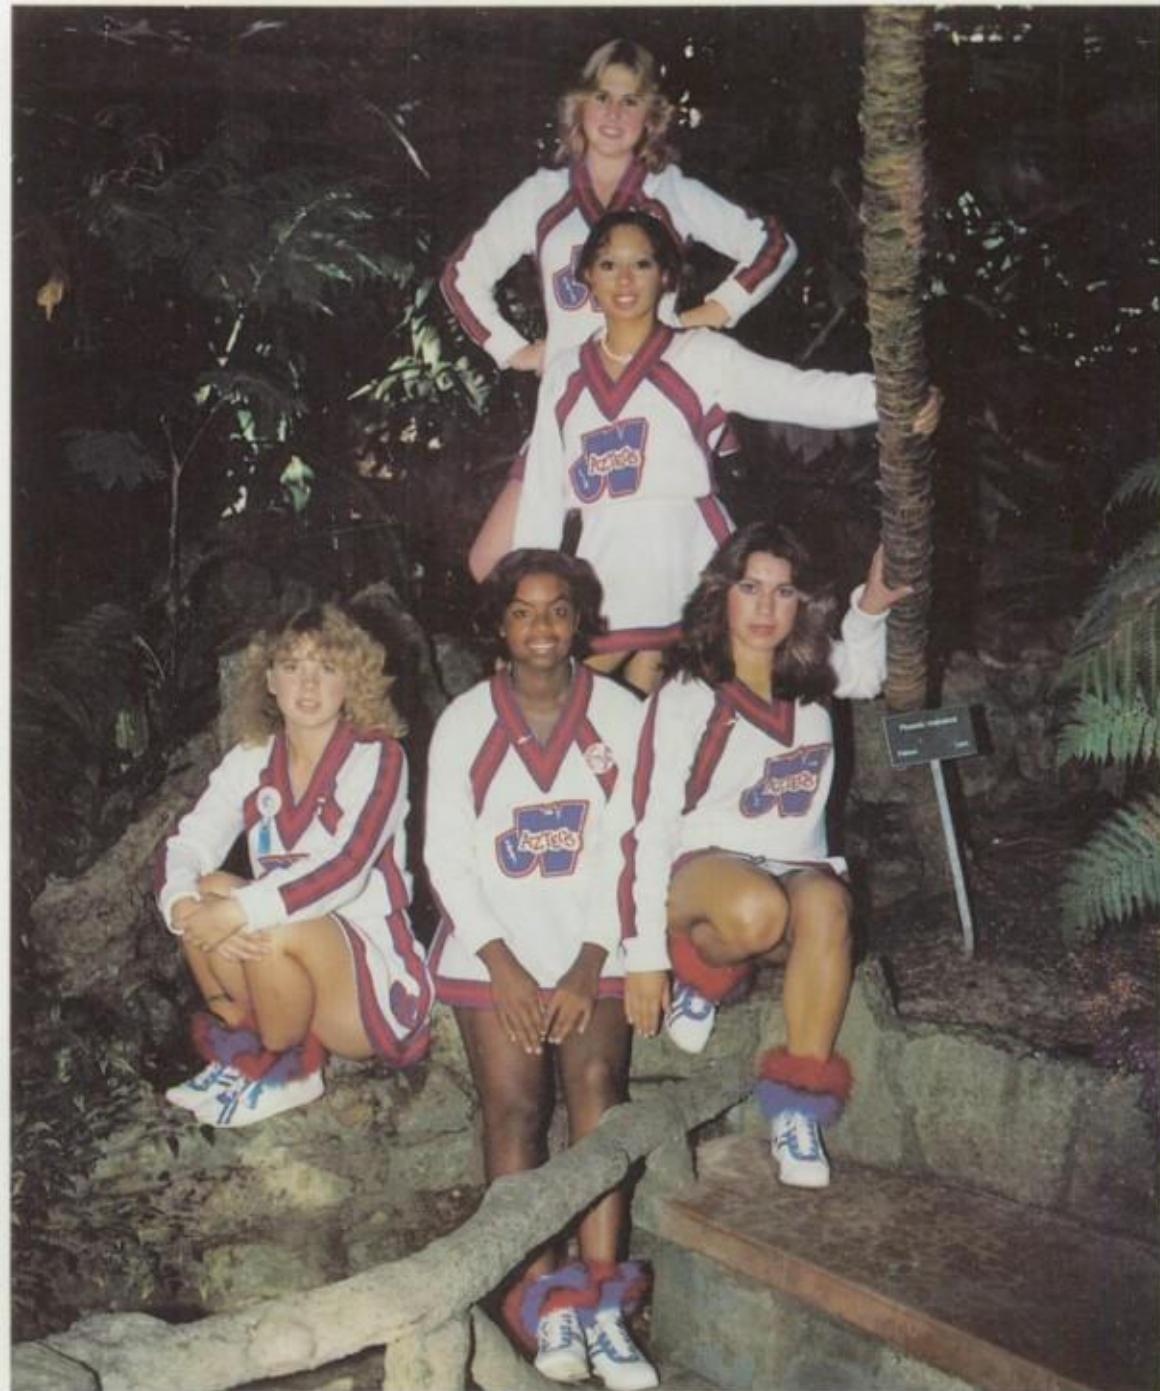

I'm Krissy, my spirits clear,

We're the J.V. Cheerleaders side by side,

Cheering loud with that "Aztec Pride".

Captain — Jennifer Richards

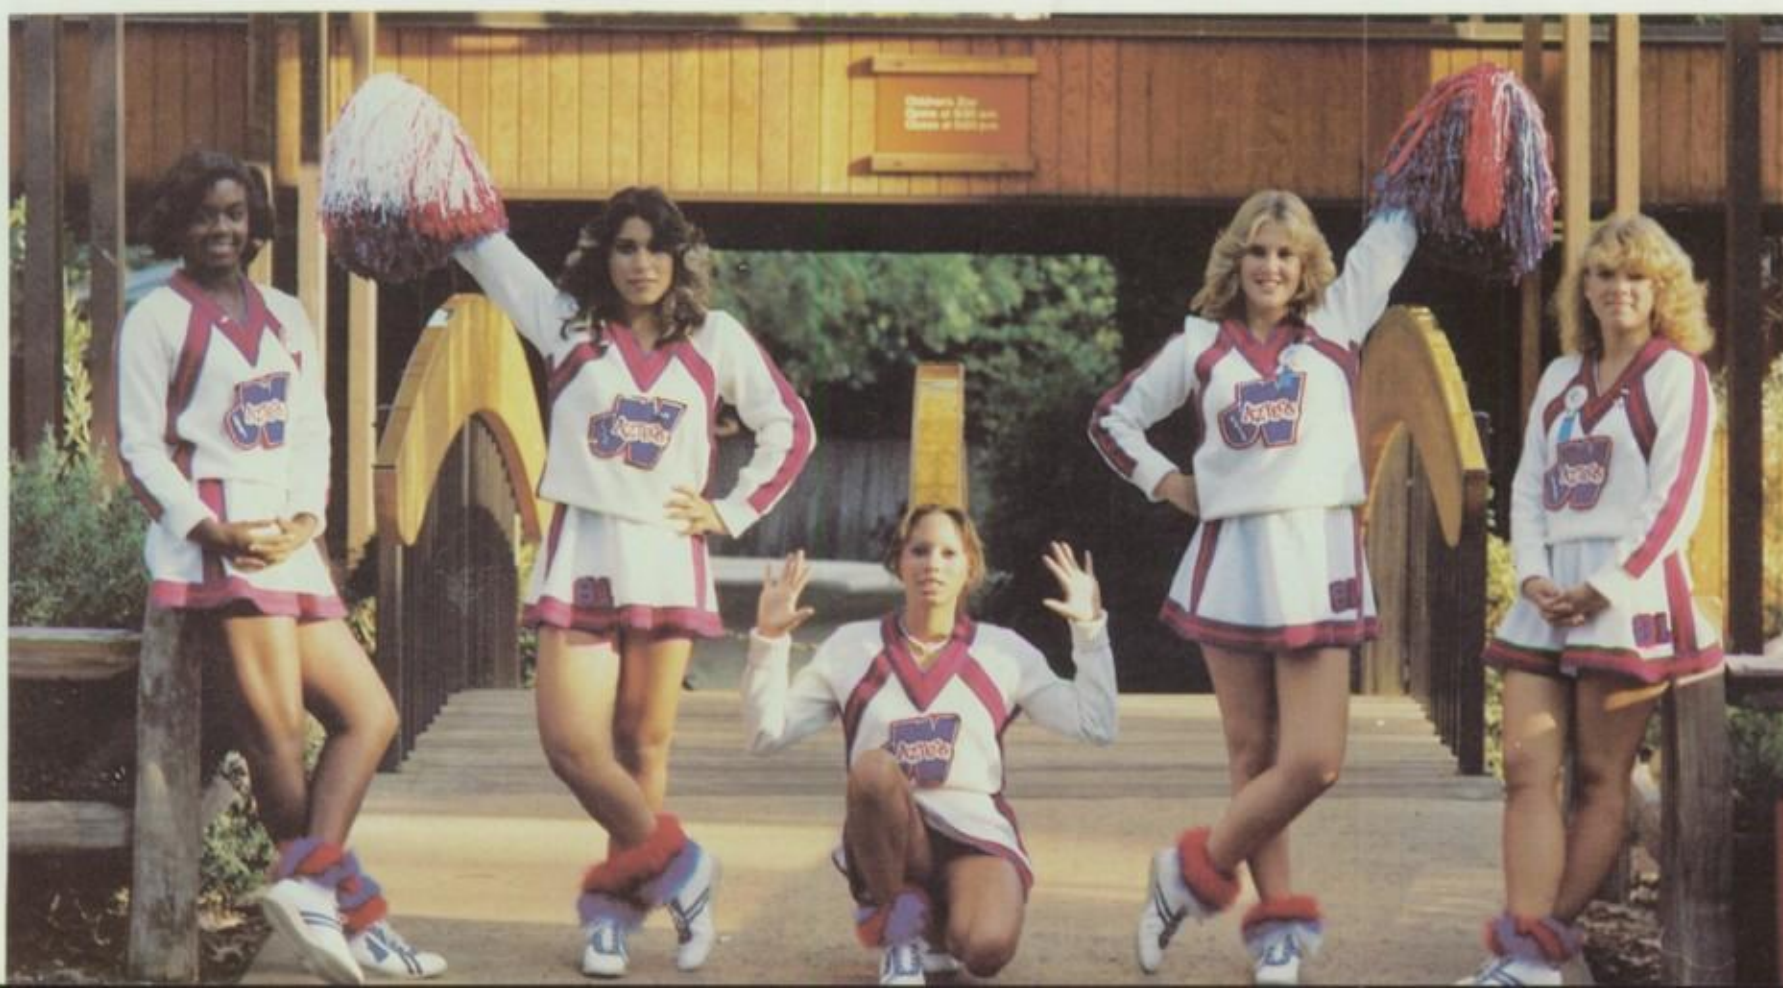

Our J.V. Cheerleaders this year consisted of five young ladies who were chosen based on their ability to project their voice, and show their creative routines and enthusiasm. Throughout the summer, they worked hard in competition against many other schools. They brought home three ribbons for excellence. They also became involved in pep rallies and in making posters to bring out our team's spirit. The squad was lead by Capt. Jennifer Richards, along with Toni Work, Kris Shappee, Liz Hernandez and Lia Smith.

Hardtimes—is just what this years J.V. Volleyball team experienced. The J.V. team had an unfortunate season. Progress was slow, mainly because they lacked court experience. With only two seniors, three juniors and eight sophomores on the team, they put up a tough battle in each of their games, making the other schools work really hard for the victory. But overall, they are certainly one of the finest Junior Varsity teams Montgomery has ever had.

The Aztec volleyball team is made up of players who have worked hard for individual achievement and team success. Led by returning letterwomen Martha Silva and Captain Terry Zakosky, the spikers were determined to overcome individual differences to work toward one goal — team unity. This goal was achieved with the help of newcomers Julie Wold, Liberty Calimlim, and Elaine Toves. These players, and the rest of the Aztec team, practiced and played hard under the guidance of Coach Olivia Pyle.

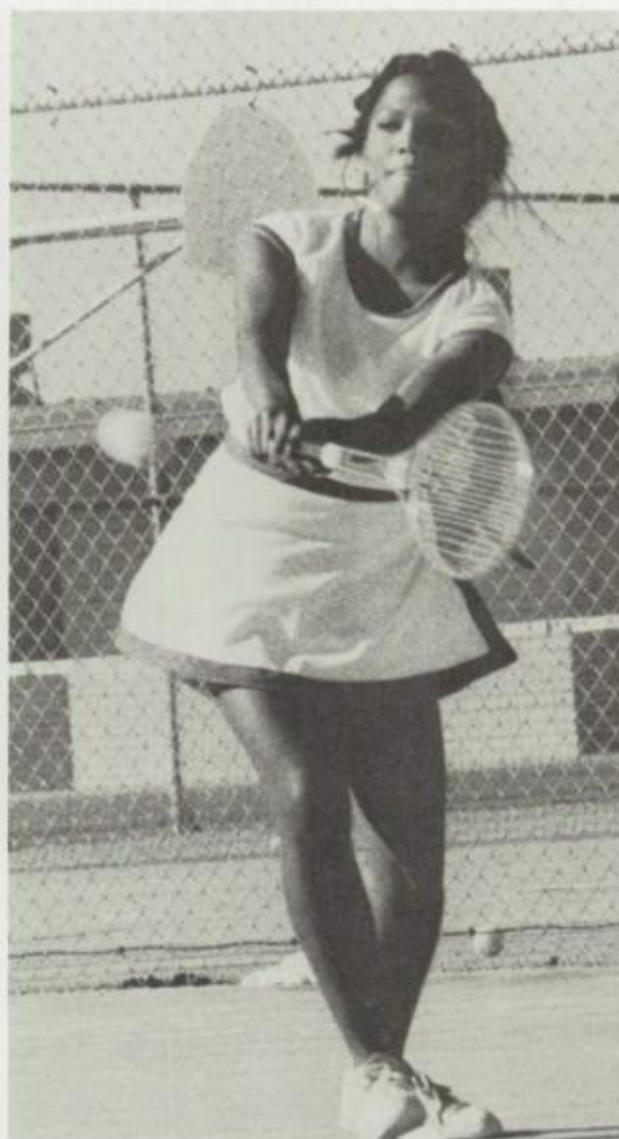

Girls' tennis started at Montgomery in 1975. Since then, each Aztec tennis team has been progressively better. This year's team is no exception. Four returning letterwomen — Captain Sharon DeVega, Julie Apodaca, Aurora Embuido, and Linda Mulligan — are the strength of the team. The rest of the team members are first year letters. Using expert advice from their coach, Mrs. Pat Samples, hard work, and expertise with a racket, these players have achieved success in the Metro League.

The long distance runner is a dedicated and self-motivated athlete. She competes, and is pushed by personal goals and sacrifices. The individual trains only against herself, pain, and the clock. It requires hard work, alone in the hills, with no cheers or applause to keep you going. There are very few athletes who are willing to endure these hardships, but we have some here at Montgomery. This is only the second year for girl's cross country here. For such a new team, the runners are doing well. They have the toughness and desire to go far.

This year, the Aztec football team was one of the best teams ever. The fact that there were 30 seniors on the roster was one reason for the successful season. Nine seniors started on defense, and nine started on offense. Twelve of the eighteen senior starters received recognition on an all-league team. These hard working and well disciplined players were a vital part of the Aztec victories. Special recognition should also go to Coach DeVore and his assistants, a dedicated group of men who helped shape these individual players into a successful team, without their efforts and leadership, the 1979 Aztecs wouldn't have been the team they were.

Montgomery's Junior Varsity Football team finished their 6th consecutive winning season this year by smashing Coronado 34-6. Their 7-2 record ended the year in second place, a half game behind Bonita Vista. Q.B. Ralph Cruz handed off to Mel Marilao, who threw to Ken Murphy to spark off the offense. On defense Denver Cruz and linebackers Howard Beard and Robert Hendricks were the "key" players. "It was a very successful year and we're very proud of our team" stated Coach Dave Peterson.

THE BAD NEWS BEARS

Good Bunt

Although the J.V. softball team won very few games this season, the team worked hard to keep their spirits high and to maintain Aztec pride. Led by Captain Regina Green, the team practiced long and hard to improve their skills. Hampered by heavy rains and wet fields, the players had unusual difficulties to overcome. Debbie Derrick, Liz Egan, Mary Arthur, Anne Ruiz, Diana Guerrero, and Felicia Mulder were very important in keeping the team together during a difficult season, according to Coach Robin Julien. The coach anticipates a successful season with the return of more experienced players next year.

Montgomery High had its first softball team in 1974. Since then, the teams have gotten progressively better. This season, the softball team had a few problems getting started, but by midseason, things started to look better for the Aztecs. Four three-year letterwomen helped the team get together. Captain Dawn Draper, Pattie Dominguez, Lori Espanol, and Grace Yamana will be greatly missed next season. Another senior, Laura Bagley, was helpful as a pitcher. Although Coach Kinney will be sorry to lose these outstanding players, she looks forward to working with returning Aztecs Monica Rodriguez, Tessie Tirona, Julie Wold, Lala Lopez, Lynette Woods and Linda Guebara.

Montgomery's soccer team for 1980 successfully defended the Metro title, sweeping through the tough Metro League with an undefeated 16-0-2 season. Led by the CIF Player of the Year, Gilbert Sanchez, the top goalie in the county, Victor Rodriguez, and the tough and talented halfback, Carlos Lira, the Aztecs posted three CIF wins before losing in the CIF finals to La Jolla. "It was a tremendous season," stated Coach DeVore. "We had a few outstanding individuals, but more importantly, there was a lot of team unity." This type of team play helped build a defense that set a new record by allowing just seven goals in 18 league games. The Aztecs also set a new team record, winning 18 consecutive games, and 30 straight league games. Montgomery is proud of its talented soccer team.

Our game against Southwest was a thriller, the Aztecs being down by 15 at half-time put on a second half surge that fell four points short of a victory. The leading scorers were Willie Mathis and Donald Rice. Our top rebounder for the whole Season was Ralph Garcia, and 6'8" Steve Ortner, who averaged 10 rebounds per game. The 1979-80 Junior Varsity Basketball season was characterized by hard work with minimal rewards. We began the season with two goals in mind: 1) To become stronger physically and mentally and 2) Be competitive in League play. Most of our offense was provided by juniors Mike Dowe and Scott Travers. Excitement and flashy play was furnished by sophomores Miguel Mendoza, Mil Marilao and Freddie Beckham. Basic "hatchet-work" and hustle was provided by sophomores David Schwantner and Freddie Beckham. Last, but not least, our "Latin Lover" was Gerardo Villa. The Aztec grapplers finished in third place in the Metro Conference with a 6-2 record. The 1980 wrestling team can be proud of a surprise upset of cross-town rival, Mar Vista, an accomplishment no other group had done in the school's ten year history. 1980 was a good year for the Aztec Tennis team — it's best ever. Undeclared the first half of the season, the team raised playoff hopes at Montgomery. Senior Jay Catapusan and sophomore Alex Castro were instrumental in the team's victories. Coach Samples is very impressed with Alex, and predicts that he will be a metro champ within the next two years. With several returning players, the team looks forward to another successful season next year.

What was that call, ref?

The 1980 Varsity basketball team was led by the consistent shooting of senior Grace Bearis, and the powerful rebounding of Terry Zakosky and Lynette Johnson. Lacking a tall player at high post, and depth from the bench, the Aztec squad had difficulties defeating most of the leagues teams. However, throughout the season the entire team maintained a high level of Aztec pride. Next year's basketball team should have more marks in the win column with the return of now experienced players Elaine Toves, Irene Crino and Aunoa Suiaunoa.

The J.V. basketball team's season was off to a great start with a victory over a tough Hilltop team. The skills exhibited in that game were evident throughout the season. Led by Co-Captains Lynette Woods and Julie Wold, the J.V. players showed a determination to improve, and to win. Lynette Woods, Paula Hite and Rose Pizarro were important on the boards pulling down key rebounds. Cecilia Bearis and Julie Wold were valuable as ball handlers and shooters. This J.V. team had a successful season because what it lacked in height, it made up for with toughness and hustle.

Time for a team talk.

With 3 returning lettermen, Coach Mike Challis saw his 1980 Varsity Baseball Team, as a team of "talent with very little varsity experience" however, he felt that there was a tremendous amount of potential. He molded this team into players with confidence, and team cohesiveness, a goal of a CIF playoff berth was not unrealistic. The team's enthusiasm, goal, and their determination led them to an exciting 9 to 6 victory over CIF Champions and the #1 ranked team in the county, Hilltop High School. However, inexperience soon popped the bubble with a 2 to 1 loss to Chula Vista and losses to Madison and Santana in the Lions Baseball Tournament. The team was still optimistic and felt that a CIF playoff berth was still possible. This yrs. club was known for it's hustle, scrappyness, never-give-up attitude and the ability to play and beat any team in the county. Returning lettermen were 1st baseman Gary Bosinger (the only one with a set position at the start of the season), Tommy Coomes, and Willie Mathis. Others who looked good on the diamond, and at the plate were seniors Jose Ruiz (team's leading hitter), Bobbie Ireland, John Gallagher, and Tevel Holeman. Junior leaders of the pack were Roger Rice (team's leading RBI's man), Gary Stacy, Gary Tomlinson, Jose Benavidas, Scott Travers and Fernando Reynoso.

Coach Challis intensely watches on.

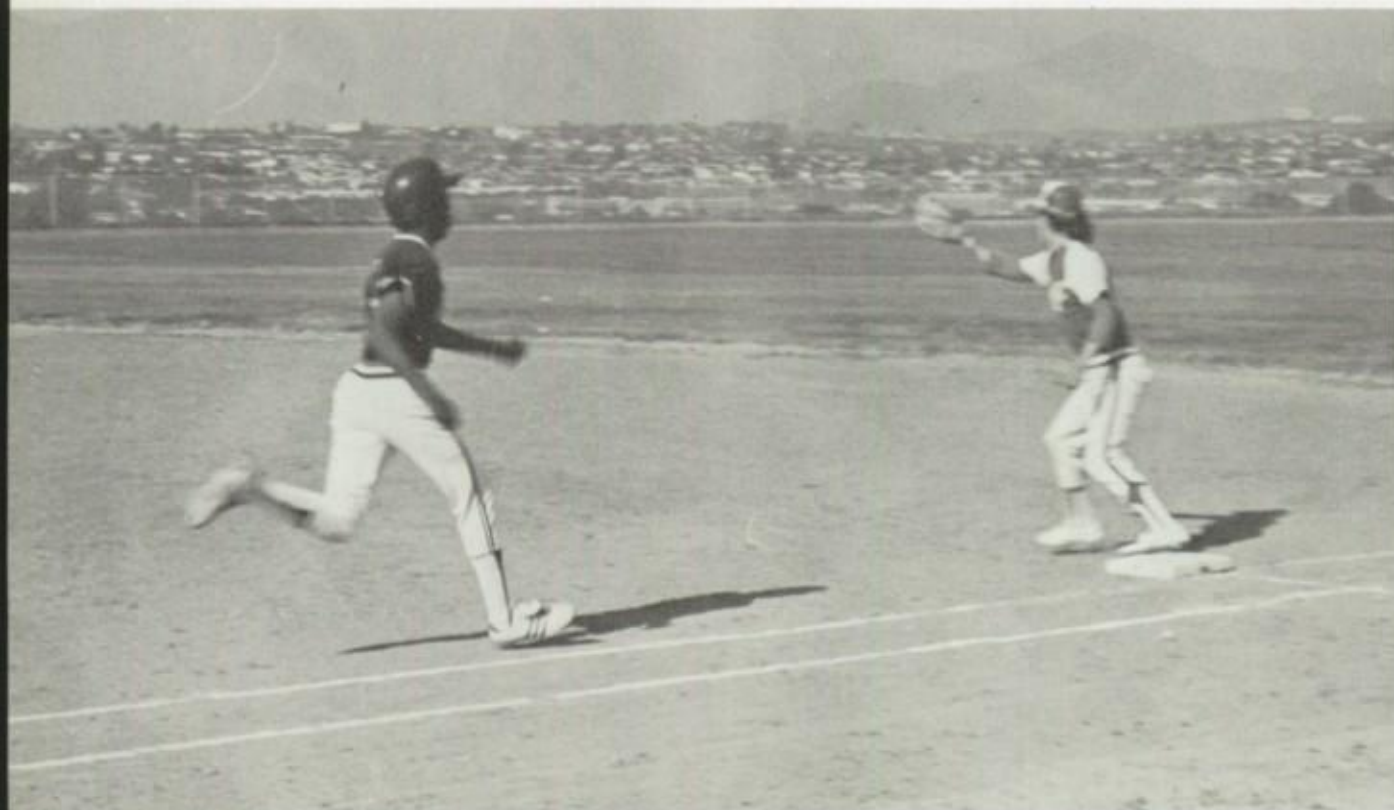

The Aztec J.V. Baseball team showed its potentiality by finishing in the 1st division of the league. Occupying the pitchers mound were George Leksell, Jesse Becerra and Carlos Flores. Catching chores were being well handled by the strong armed Junior Santos, who had power of the plate. The strongest part of the team was its infield, anchored by Mike Marchesano with Doug Forgie, Mike Groff and Jose Ramos. The Aztecs speed afoot and a strong arm are the tools necessary for a good outfield. Don Turley, Pat Williams, Terrence Marshall, and Felipe Ontriveros have given indications that they will be sharing the load in the outer garden. Hopefully next yr. will be as exciting as this yr. was.

This year's gymnastic team was small in number, but some dedicated and skilled performers made up the difference. Seniors Vivian Buenaventura and Bernadette Garland were very important to this years' team; they had the most depth in competition, and were able to place in more than one event. Becky Davey and Nanette Morales also exhibited the dedication and skill needed to be a successful gymnast. With many new performers returning next year, this time with a season of experience to their credit, the gymnastics team looks forward to another season of competition in 1981!

Bernie shows her winning style.

People have different "Images of the future." Some people hear the word future and think of robots, spaceships, and life on other planets. Others think of peace and a better way of life for all men. For some people, the future means investment; a chance to get ahead in life. As the saying goes, "The future belongs to those who prepare for it." Without dreams or inspirations, the future holds no true meaning. We would have nothing to look forward to, there wouldn't be the excitement or the anticipation of experiencing something new. Part of life is being able to have the courage to do the things that you want to do; to fulfill lifelong dreams, whether it be dreams of inter-galactic flight, harmony among men, or a big house in the suburbs. No one can tell what the future holds. We can only guess at what it will be like through movies and television programs. Who knows, twenty years from now, there could be world-wide peace or humans living on Mars — you can never tell.

Ms. Helen Lincoln — "Aztec Staffer" award winner.

Mr. Hombs and Coach Challis patiently wait to be served.

Mr. Jay Mack — "Aztec of the Year" award winner.

The second annual Teacher Appreciation Luncheon was held honoring the outstanding effort put out by the faculty. During the luncheon, three awards, the "Aztec Staffer", "Golden Apple", and "Aztec of the Year", were presented to three well-deserved recipients. Voting was casted by the student body.

The "Aztec Staffer" award, given to Ms. Helen Lincoln, is an award for the most outstanding classified member of the faculty. She was noted for her friendliness, dedication, and contributions to students and the school.

The "Golden Apple" award is an award for the best classroom teacher. One who enlightens, motivates the students and shows an evident desire to teach can only fit Ms. Sheila Benter. Not only does Ms. Benter have the gift of good teaching, but she possesses a bond of trust and the ability to get along with her students.

Mr. Jay Mack was awarded the "Aztec of the Year" award. He was chosen as the best all around teacher. In addition to being the best all around teacher, he has participated in activities by showing his enthusiasm during assemblies as well as in his teaching. The entire student body is certainly honored and fortunate to have these people on the staff. Ms. Lincoln, Ms. Benter, and Mr. Mack are to be congratulated for their efforts in making Montgomery what it is today.

Ms. Lincoln receives her award.

It takes a special kind of person to be a member of Montgomery High's "Elite Guard." One must have strength, wisdom, and a tremendous amount of patience. You must be able to talk to students on a one to one basis and enjoy it. It is this group of people whom many students go to for advice on various subjects ranging from family problems to college. Each member of the "Guard" has very important jobs. They range from student counselors to an attendance officer. The men and women who make up this special department are also qualified teachers, and have put in various years of teaching before becoming members of the administration. Known for their hard work and guidance, these people are truly Montgomery High's "Elite Guard."

Mr. Mc Kusick and Mr. Ferguson ham it up

Mr. Mc Kusick holds up retirement gift from faculty.

This year, after 15 years of teaching Mr. George Mc Kusick retired. After graduating from the U.S. Naval Academy, in 1935, Mr. Mc Kusick flew in World War II as a marine officer pilot. As a part of the California Division of Forestry, Mr. Mc Kusick gained 17,000 pilot hours of flying. At home, he makes wine and enjoys organic gardening. During his decade of teaching here at Montgomery, Mr. Mc Kusick taught math. One of his major accomplishments was helping six students prepare for the U.S. Naval Academy. His guidance and dedication to teaching inspired many of his students, especially those who were college-bound. Mr. Mc Kusick gained much respect and admiration from his students, as well as his fellow teachers. We wish him all the best in the years to come.

The Fine Arts Department specializes in the field of imagination. Students taking fine arts are especially unique and creative. Often their work, whether it deals with music, photography, or art, expresses their individuality. Generations from now, art may become more abstract and difficult to interpret. Styles of music will definitely change. Photography will be developing new techniques and innovations. Although these changes will occur, there will never be a lack of interest in the fine arts.

Practical Arts is a division made up of three different departments: Industrial Arts, Home Economics, and Business Education. Industrial Arts is made up of such classes as Auto Fundamentals, Auto Mechanics, Electronics, and Wood Shop. The Home Economics Department consists of classes that offer lessons in sewing, cooking, partenting, child care, and Consumer Education. The Business Department includes Typing, Shorthand, Notetaking, Office Skills, and Project Invest. Project Invest is the only program of its kind in the Sweetwater Union High School District. The Foreign Language Department started out with six teachers in 1970. Spanish, French, and German were the three languages taught. Since then, the department has expanded, and added one more language — Tagalog, the native language of the Philippines. Many students at Montgomery feel that learning a second language is important. To some Aztecs, it is a way to learn more about their ethnic background, and to others, it is just a necessary requirement for college entrance. Whatever the reason, most Aztecs will agree that while the mastering of a foreign language is difficult, the end results are truly rewarding.

Most people don't realize that communication is a vital part of life. Imagine a world where no one could write, read, or speak. Expressing one's feelings would be quite a job. Everyday life would be complicated, as well as boring. Through the different medias we are able to express ourselves and our feelings. Television, radio, newspapers, and magazines are just a few of the communicative sources available to us today. Classes such as Competency 100, Ethnic Literature, and Short Stories teach us how to communicate with and relate to others. These and other classes in the English Department are important to us. Not only do we learn a bit about life past and present, but about the future as well.

Twenty years ago, sending a man into space was a mere dream in the minds of a few Americans. To others, the idea was preposterous. Today not only has man traveled in space, but he has also walked on the moon. Space travel is also taking on a new dimension — chartered space flights. With the creation of the Enterprise, the United States' space shuttle, commuting between the earth and her sister planets may soon become a reality. For now, we earthlings must be content commuting on the freeway, but who knows — twenty years from now, former Aztecs may be one of the first humans to colonize the moon!

Math is one of our greatest links with the past and the future. It is older than the Hindu-Arabic civilization whose numeric system we use today. Math has always been considered an important necessity to progress. It is the basis of many professions. Math is used in such fields as Medicine, Engineering, Business, etc. In an ever progressive world, one's proficiency in math can determine how successful he will be in obtaining a job. Computer technology is one of the fastest growing math-oriented fields today. There are more opportunities in the field and it is predicted that in the near future there will be an even greater demand for math-oriented people. Math contributes greatly to the building of our future.

Presently, P.E. is a class where many can enjoy themselves and more or less relax their brains. It offers competition, exercise, as well as enjoyment. Students learn the importance of team work and good sportsmanship. The thrill of victory makes one feel that he has accomplished his goal. However, all this may change in the future. Society is just beginning to make electronic games like football, basketball, baseball, tennis, ping-pong, hockey . . . and the list goes on. Playing these games require mental work, rather than physical work.

Learning Disabilities is a program which is structured to help students improve their learning disabilities. It was started at Montgomery seven years ago in an effort to help students develop learning skills to the point of succeeding in regular academic classes. The subjects taught are English, Mathematics, Social Studies, and Science. Teaching in either small groups or individually allows the teacher to pinpoint the students' weaknesses and overcome them. Montgomery High School is fortunate to have teachers like Mr. Jurchenko, Ms. Manning, and Mr. Shea. Their patience, care, and willingness to aid these students who need help is what makes a program like Learning Disabilities a success.

The world is in constant change. As John Steinbeck once said, "... I believe that our history, our experience in America has endowed us for the change that is coming." Social Science is no exception. As time progresses, new information comes along which makes it possible for us to learn more about ourselves and the society that we live in. Family Life, Government, History, Juvenile Law, World Cultures, and Psychology inform us about developments, old and new, which allows man to jump ahead and have a better understanding of life.

The cafeteria staff consists of: Eunice Carty, Paula Chavez, Rachel Garcia, Rosa Natal, Toni Polanski, Leticia Wright.

Many students aren't aware of the people who make up the support staff. For one reason or another, you've noticed the secretaries in the office hard at work. The nurse is there to assist anyone with anything from a scratch to a broken arm. Then there are the custodians — the men who keep our school beautiful and make sure that everything runs smoothly. If it weren't for those men, we would be sitting in messy classes, and walking through heaps of trash. The librarians make finding books and magazines easier for us. The cafeteria workers keep busy preparing food for those of us who often get a case of the "munchies". Together, these people through their combined time and effort, contribute into making school life a great deal easier.

The cafeteria aides are made up of: Rochelle Adams, Beatriz Alvarez, Nohemi Aranzubia, Donald Bisner, Celina Cordero, Albert De La Loba, Teresa Duran, Mancella Ezeta, Maria Gutierrez, Amalia Herrera, Gary Latimer, Sheryl Meza, Felipe Muro, Ricardo Plascencio, Martin Rios, Patty Sessler, Greg Taylor, Lupe Ybarra.

Life can be imagined as a three-ring circus. Each ring can represent a stage in life. The first ring can symbolize youth and childhood. The center ring, being the main attraction since most of life takes place in this stage, can stand for adulthood. The final years of life are dedicated to the last ring.

The students at MHS are at the transitional stage between childhood and adulthood. They are at a time in their lives where they must choose which path their lives will take.

After high school, many graduates have an idea of which career they would like to enter. Those who have been leaders for most of their lives, or the "Ringmasters of the Circus of Life," may wish to continue to practice their leadership abilities and enter a career which requires an authoritative figure. Being the owner of a business or a policeman are examples of such careers. Others prefer to be part of the long line of performers in the Life Circus. Whether it be a trucker or a nurse the career decision is a vital one since it is the first step on the road to adulthood.

The first step into adulthood is usually the hardest because a new world is opened up. Since there is no more parents or school to depend on, independence is imperative. In order to survive in the world one should do his/her best in the performance of their duties. This quality is made through good practices. This implies that bad habits should be broken. Habits, such as excessive tardiness, aren't tolerated in the highly competitive job market. There may be a variety of jobs available: choosing a career and being successful in it is another story.
